

Hi Everyone and Happy New Year!

I have a real treat for you this month. Several months ago one of the members of the German American Society of Bristol send my this item called "Attorney's Advice" which we have attached for you.

Identity theft and misuse of credit cards, etc. is a big issue these days. It certainly is on my mind. I think it should be on your's. This can happen to anyone. Even a big shot attorney like the guy who wrote the attached memo.

I hope you find this useful.

I would like your opinion on something.

Several months ago one of my fellow BOY advisors told me about how he is doing virtual meetings with people through a website called, Go To Meeting.com. Over the holidays I had a chance to look it over and think about how this could be used to help make your life and my life easier.

Looking to ways to make your life and my life easier is always on my mind.

Anyway, I found out that I can actually do my seminar presentation using this website as well as meetings. People have told me that it is easier for them to do things like this through their computer and over the telephone than it is to attend meetings in person.

What do you think?????

Would you go for the idea of doing a meeting or even a seminar through the Go To Meeting.com website?

This time of the year I worry about the weather messing up my plans to hold in person seminars and meetings. Gail and I have talked about using this as a back up in case of bad weather. After all, everyone has already blocked out the time, so why let a foot of snow or some ice stop us!

Feel free to communicate with us whenever you want. I really want to hear what you think of this idea.

Thanks!

Alan
